MENLO PARK RECORDER

A PAPER DEVOTED TO THE BEST INTERESTS OF MENLO PARK AND SAN MATEO COUNTY

VOLUME 5 — MENLO PARK, SAN MATEO COUNTY, CALIFORNIA, FRIDAY, MARCH 9, 1928 — No. 23

Sanitary Election Monday

All Registeren In Last Two Years May Vote

In an interview with Judge L. H. Cook, who is secretary of the Menlo Park Sanitary District, he stated that he had been informed by the Attorney for the district that all of those persons whose names appear on the old register are elegible to vote at the Sanitary Election, Monday, March 12th, since this election is less than ninety days after the first of the year. Of course if one has first registered in the district since the first of the year, he is entitled to vote if he registered before February 12th.

During the last year the District has made more progress, perhaps, than in the preceding twenty years. A $40,000 bond issue was recently authorized by the voters of the district and bids are now being invited to place main sewers out Middle avenue, Santa Cruz avenue and Valparaiso avenue to the limits of the district, Lemon avenue, besides "feeder" sewers on many short streets, as Fremont avenue, the short streets off of University Drive, Menlo avenue, and a number of other streets. The sewers in Stanford Park are now being rehabilitated; sewers have been installed in the built up district just south of the Atherton depot between the Highway and the railroad, and in several other districts. The Nara tract is also in the estimate.

Regular meetings of the Board have been held upon the first Thursday of each month at 8 p. m. during the last year, at the Menlo Park Fire House, and since the first of January in the Menlo Park Cty Hall. The meetings have always been open to the public.

The two incumbents whose terms expire this month are Judge L. H. Cook and Edmund Doyle. Mr. Cook, City Judge of Meno Park, has been an active worker in the interests of his town while on the board and is well and favorably known. He at one time was proprietor of the Safety Electric Works, and now is professor of Organic Chemistry at the University of Santa Clara. Hs training and experience exceptionally well qualify him to be re-elected to the Board. Edward Doyle, who has lived in Menlo for many years, is ably fitted for the office that he has successfully occuped for the last two years. Mr. Doyle graduated from Stanford as a civil engineer some years back and his professinal knowledge is of great benefit to the district..

John Glunz and Earl Rankin are also candidates for the offices to be vacated in the Sanitary Board. The former is a local carpented and builder and is very well known and the latter is one of the city's leading insurance men.

The only candidate for assessor is John B. Kelly, who has held the position for many years. Due to recent legislation, however, the office no longer has any duties, nor pay, since the Board has allowed the County Assessor to do this work without cost to the Menlo Park Sanitary District.

There is but one polling place; the Menlo Fire House, and the polls will be open from 6 a. m. till 7 p. m., the day of election, Monday, March 12th.

Merchauts Will Hold Big Meeting Tonight

A big meeting of the business men of the City of Menlo Park will be held at Kuck's Hotel on Oak Grove avenue and the Railroad tonight for the purpose of considering local conditions and seeking a remedy for a few faults that exist, or that are believed to exist.

The meeting will be called promptly at eight o'clock and it is the desire of those behind the movement to have every business man in the City present. This means the business women also.

There are many problems that face the merchants of the city at this time that are vital to both the merchant and the city and it appears that the only way to clear up the situation is the hold a big get-to-gether meet and talk matters over.

All are invited to come and bring any problems that may be facing them for discussion.

Don't forget the time and plact: **Kuck's Hotel On Oak Grove avenue at 8 o'clock TONIGHT.**

ARBOR DAY PROGRAM FRIDAY AT FREMONT SCHOOL

An Arbor Day program will be featured at the Fremont school in the Stanford Park district this afternoon at two o'clock.

The program follows:

Arbor Day Song ..... School
Trees ..... Recitation
June Harru, Marjory Smith, Virginia Garland and Dorothy Jean Smith.
The Tree We Plant Today .....
..... Charles Palmer
The Trees' Friends..... Song
By the School
Dialogue ..... Arbor Day
Carmel McGunagle
Gilbert Reich ..... A
Billy Tupper ..... R
Takashi Nakamato ..... B
Mitsula Imamura ..... O
Jack Hara ..... R

Bruce Smith ..... D
Robert Rose ..... A
Kirk Sevenson ..... Y

The Bird's Nest ..... Song
By Third and Fourth Grades
Kinds of Trees ..... Recitation
By Hachiro Mukai
I'll Plant A Tree ..... Recitation
Ellen Gutleridge, Laddy Tupped, Vivian Love and Paul Nielson
Spring Song ..... By School

After the program the local Parlor of Native Daughters will plant some trees in the school yard.

PALY AT STANFORD GALLERY NATURE POSTERS ARE ON DIS-

The annual exhibition of nature posters, sponsored by the California Wildflower Conservation League, now on display at the Stanford University Art Gallery, is attracting throngs of visitors daily. The posters, which show birds, wildflowers, forests, woodland creatures and berries, plead for the conservation of the natural beauties of the world, which the careless are wont to destroy.

Some of the best posters are the work of boys and girls of the Palo Alto schools.

The exhibition will remain open to the public from 10 to 5 o'clock daily until March 14.

★

Mrs. Beulah Schindler of Burlingame will be the speaker at the Parent Teacher Association meeting to be held in the local grammar school this afternoon at 2:30. Mrs. Schindler is District Chairman of Legislation and a fluent speaker. A large attendance is desired. ?

Judge Charles Shurtleff For School Trustee

As the time for the school elections on March 30th, draws near, those who are interested in the schools, in the good and welfare of the children of the district, naturally begin to look around and see who is best fitted for these position of trustee.

Judge Charles A. Shurtleff, of Menlo Park has announced himself as a candidate for the office of Trustee of the Sequoia Union High School District. This is a position that requires the expending of an unlimited amount of time and thought, that the affairs of the big school may be kept running at a maximum efficiency with minimum of expense. It is a position that requires a broad experience and an unselfish devotion to the trust and duties placed on the shoulders of the man elected. Just such a man is Judge Charles A. Shurtleff.

Menl Park with her rapidly growing population is entitled to a member on the board of trustees for the Sequoia Union High School district, some one who will look out for the interests of local children in the big high school, which at this time is growing rapidly in enrollment and again Judge Shurtleff appears as the man for the place.

Judge Shurtleff has lived in Menlo Park for many years and is well and favorably known by both the old timers and new comers, and there is no doubt, or at least so it seems, but that his election is assured. But allowing that this is a fact his supporters must work until the last vote is counted to put him in the office.

As for the grammar school situation, the Recorder has not received information as to who will be candidtes.

★

SCHOOLBOYS TO BE GIVEN AWARDS BY AMERICAN LEGION

Through the cooperation of the American Legion and the Department of Education in the state government, Legion Posts throughout California will conduct a state-wide contest to award medals in each community to the boy who is adjudged the outstanding pupil in each Grammar School graduating class, according to State Adjutant, James K. Fisk.

"This activity is designed to place emphasis on the development of character and scholarship in school pupils by the presentation of medals to outstanding pupils", State Adjutant Fisk announces.

"The awards will take into consideration five subjects: honor, courage, scholarship, leadership and service", according to Adjutant Fisk. "The committee of each Post will select the boy who is to receive the medal after consultation with the teachers and members of the Junior High Schools, who will vote separately on the five qualifications set forth as the basis of the award!"

William John Cooper, director of the state department of education and state superintendent of public instruction, is cooperating with Thomas W. McManus of Bakersfield, chairman of the Department's Americanism Commission in charge of the awards, in the Legion's state-wide competition.

★

Miss Stella Ely, and Mesdames F. Metcalf, E. Gardner, J. E. Cooper and J. T. Cooper of the Menlo Park Study Club attended a meeting of the District Federation of Woman's Clubs at Burlingame yesterday as representatives of the local club.

Troop Committeemen P. Blanchard and Nunn of the local Boys Scout committee attended a Court of Honor at San Mateo last Tuesday night.

Safety Electric Works Gets Big Contract

T. B. Hunnell, proprietor of the Safety Electric Works, of this city reports that he has secured the contract for installing the electric wiring and heaters in the fine new residence being erected for W. V. Haus on Selby Lane, Atherton.

According to Hunnell the service being run for this home is an exceptionall large one and requires extreme care on the part of the electrical workers employed.

Hunnell's contract does not cover the fixtures, whch will be taken care of later.

Ths only one of many big jobs that this firm has handled and they have many more in view.

★

CARDS TO MEET LOS ANGELES ATHLETIC CLUB TEAMS HERE IN BIG CONTESTS SATURDAY

By Don E. Liebendorfer

Boasting of the greatest group of star performers ever gathered together on the Pacific Coast, the Los Angeles Athletic Club track and field team will invade the Stanford Campus Saturday, March 10, to do battle with "Dink" Templeton's Cardinals in the Stanford Stadium.

Included in the club roster are such luminaries as Charley Paddock, the "world's fastest human"; Nick Carter, who beat Wide in the mile run last year; Bob Maxwell and Jeddy Welsh, two of the greatest hurdlers on the coast; Chuck Eaton and Vendale Harlow, each of whom has thrown javelin over 200 feet this season; and the famous pole-valuting Smith brothers who are each capable of 13 feet 6 inches; to say nothing of a host of other brilliant performers.

Although critics concede Stanford but little chance to win the meet there will certainly be some thrilling battles both on track and field. Templeton's men will doubtless benefit by the experience they gain in competing against these seasoned stars. The quarter mile will probably be one of the best events of the day with Percy Niersbach, former Trojan performer, pitted against Captain Bud Spencer of the Cards. Niersbach has done 49 4-5 this season, and as Spencer is not in the best condition, the be-spectacled Stanford skipper will have a tough time finishing first.

Friday night, the Stanford boxers meet the University of California leather punchers at Berkeley for the first time since 1922. This tournament should develop some great fistic battles.

Stanford's complete sport schedule for the week is as follows:

Friday, March 9—Boxing—Stanford vs. California at Berkeley.

Saturday, March 10

Track—Stanford vs. Los Angeles Athletic Club, and Stanford Freshmen vs. Oakland High School All Stars at Stanford.

Baseball—Stanford vs. St. Mary's, and Stanford Freshmen vs. Mission High School at Stanford.

Tennis—Stanford vs. U. C. L. A., and Stanford Freshmen vs. St. Ignatius High at Stanford.

Tennis—Stanford vs. U. C. L. A., and Stanford Freshmen vs. St. Ignatius High at Stanford.

Handball—Stanford vs. California at Berkeley.

Fencing—Stanford vs. California at Stanford.

Gymnastics—Stanford vs. California at Stanford.

C. E. McPherson of Atherton is confined to his be dwill illness. He is reported as improving.

Donald McPherson is home sick this week.

Council Holds Short Session Tuesday

At a Council meeting held in the City Hall last Tuesday night all of the members of the board with the exception of Councilman Blake were Present and fololwing the reading of the minutes got down to business in record time.

Three applications for the position of garbage collectr were received and discussed at some length and V. Arata, one of the applicants, addressed the board. Arata stated that he had been making collections for the past year and a half and desired to continue.

Mr. Diebels, a resident of Menlo Oaks addressed the Council with regard to the annexation of his district to the City of Menlo Park. He asked as to what the advantages annexation would bring were, particularly stressing the point of zoning and other protective measures for the section known as Menlo Oaks. After some discussion the members of the Council decided that the best method of procedure would be for the board as a committee of a whole, meet with the residents of the Menlo Oaks district and talk the matter over.

The date set for the meeting is tomorrow night (Saturday) in the school house in the Menlo Oaks district, at which time the matter will be thoroughly argued out and all of the points of advantage of annexing to Menlo Park Brought out.

Quite an accumulation of bills were taken up and paid following which the board adjourned.

★

HOOVER STATE FORCES ORGANIZED TO CARRY ON CAMPAIGN

With campaign headquarters organized and opened in both San Francisco and Los Angeles for the north and south, the effort of California to give Hoover the biggest complimentary vote ever accorded a presidential candidate at a primary election is well under way.

In San Francisco the campaign for Northern California is under the general direction of Marshal Hale, while in the south C. C. Teague is head of the movement. The big problem in hand, according to those in charge in the north and south, is not whether Hoover will be nominated at the primary in this state but by how large a vote.

Throughout the state the work of the next few weeks will be centered in getting a big Republican registration. "Hoover regardless of party affiliation" is to be the keynote of this campaign. Hoover leaders will stress the fact that this is California's greatest opportunity to date to put one of her sons in the White House. It is to be pointed out, too, that Hoover's work, as a member of the Coolidge cabinet and during the war and post-war periods, was of such a character as to win him the allegiance of the people as a whole rather than merely the members of his own political party.

Hoover Clubs throughout the state are being organized. One was organized in Palo Alto several weeks ago and is adding members daily. So spontaneous has been the movement that in many instances Hoover supporters have banded together ahead of solicitation by the campaign headquarters of the north and south. The fact that Republican forces in California are united to a man for Hoover has also been a big contributing factor in the phenominal spread of the movement.

Thousands of Hoover Club cards have been distributed from the headquarters in San Francisco and Los Angeles and the indications are that long before the primary date California's presidential candidate will have the biggest organized support on record.

WOMAN'S DAY IN S. F. TO HONOR WOMAN'S WORK

Clubwomen of San Francisco are planning to observe, Thursday, March 15 as "Woman's Day" at which time a program will be presented in keeping with the spirit of the occasion in which due notice will be taken of the women of undaunted courage who have wrought so nobly for our western civilization.

Following is the proclamation issued by Mayor James Rolph of San Francisco for observance of the day:

"Thursday, March 15, 1928, is hereby respectfully proclaimed as 'Woman's Day' in the city of San Francisco.

" 'Woman's Day' is set apart as an occasion when San Francisco, fired with the gallant spirit of our old California grandees, may bow graciously in recognition of the achievements of the women of the West.

"The history of the West is replete with the deeds of noble women. We find them in the covered wagons, coming westward over the desert waste and jagged mountain. We see them in perilous voyage around Cape Horn and doing more than their share to wrest the west from a wilderness.

"Later history reveals noble woma.. furnishing the inspiration for the development of a glorious West. When the great fire ran madly across San Francisco in 1906, woman worked tirelessly to alleviate suffering and distress. Women have, in fact, participated in every project of recent years for San Francisco's advancement.

" 'Woman's Day' in San Francisco may be observed appropriately in school, club, office and home. It is a day when thousands of representative women have arranged to pay tribute to the women of the West in public exercises to be held at the San Francisco Women's Building, Sutter and Mason streets. On 'Woman's Day' they propose to re-dedicate and rename their beautiful structure in honor of the women of the West. The doors will be thrown open wide on that occasion and the general public will be invited to inspect the building and view the splendid monument to the ideals and achievements of women.

"Very glady I bespeak the cordial co-operation of the people of the city in making memorable this day, which all will be glad to observe.

"JAMES ROLPH, JR.,
"Mayor of San Francisco."

MANY ALUMNUS OF SANTA CLARA COLLEGE PLAN TO ATTEND PASSION PLAY THERE

Ten thousand men and women from all parts of California and the West are expected to attend the Passion Play of Santa Clara which students of the University of Santa Clara will produce in the university auditorium on March 21 to 25 for the fifth time since it was written by Clay M. Greene in 1901 on the occasion of the celebration of the Jesuit College's Golden Jubilee.

Members of the Santa Clara Alumni in every section of the state and from every walk of life are planning to attend the 1928 production of the "Oberammergau of America" which is said by critics to rival, if not eclipse the famed Bavarian biblical drama.

Rev. Cornelius J. McCoy, S. J., president of the University of Santa Clara, is making arrangements with transportation officials for the running of special trains to the scene of the great drama of The Passion.

Many of the Alumni of the Jesuit University who will attend the production have not met since they were boys and students in the college. A number will come from the classes of the 70's and the 80's. Not a few are now prominient in the business and professional and political life of the state.

There are 135 actors in the cast of the Passion Play. The costuming, scenery and lighting effects are on a more magnificent scale than ever before attempted. Edward Preston Murphy is the director of the dramatic biblical pageant.

Miss Beatrice Wadsworth was the guest of honor at a birthday dinner party given at Lindy Lou's last Wednesday night.

A. J. Strickland of the Menlo Service Station is the proud owner of a new Buick Sedn purchased last week.

Hamburg's Lucky Streak

Hamburg, one of Germany's largest cities, might be still only a small port if the American colonies had not rebelled against English rule and won the Revolutionary war. A large part of the trade of the continent of Europe that formerly went through London was diverted to Hamburg as the result of that conflict, and the city grew by leaps and bounds, relates Pathfinder Magazine. Now it and its suburbs have about 2,250,000 population. Bremen and Stettin also had a remarkable growth during the German expansion period, but Hamburg had the advantage over those ports by having deep water.

We Like What We Like

People respond neither to what is high-brow or low-brow in the drama, but simply to what is artistically perfect.—American Magazine.

SEQUOIA BALL TOSSERS GETTING INTO LINE

With the dawn of Spring came the crack of a bat meeting a ball on the Sequoia Union High School diamond. Coach F. J. Griffin issued his first call for candidates and the boys responded fairly well.

On the unlimiteds Griff has Stan Botto in the box, and Jones on first. These two boys were mentioned for P. A. L. Honors last year. On second is Al Lutje, while at short is R. Clancy and on the "Hot Corner" is Tom Shine. This infield combination is fairly fast and with a little experience should show up well. Behind the bat are Partee Lintner and Walther, who have been playing fairly steady ball. In the out field there is Ike Britschgi in the Berry patch, Arnie Jansing in the hay field and Worrell, Sepulvedo or Sutton, relief pitcher, chasing sows in the right field.

This team with a little experience cause much trouble to the other teams of the P. A. L.

Every voter vho expects to vote at any of the elections during the year must register.

Eternally Broke

The most common habit we have which makes for distress is the habit of living beyond our means—not only of monetary income but of vital and emotional energy. As a consequence we drag our feet through life, figuratively and literally speaking.

Such men and women have no time or energy to live because they exhaust both time and energy in keeping alive They go through life eternally broke They can't get more out of life because they don't put more into life They can't be happy because they are crowded, pushed, pulled, swamped by countless impulses which have no biologic value, satisfy no social needs and contribute nothing to individual life, health or happiness.—George A Dorsey, in Cosmopolitan.

Peculiar "Insult"

A Hungarian fruit dealer having a very large melon on his hands decided to use it for advertising purposes and accordingly he had the Hungarian coat of arms carved upon it with some minor variations and thus he put it on show in his window. The town officials were thrown into a panic by its presence and saw an insult to the Hungarian nation. They arrested the poor fruit dealer and took him into court, where he was promptly found guilty and sentenced to a fine or imprisonment. He appealed his case and the second court reduced his imprisonment to six months instead of a year, but gave him no alternative of a fine. His offense in each case was insult to the Hungarian nation.

ORDINANCE No. 10

AN ORDINANCE REGULATING THE ERECTION, CONSTRUCTION, ALTERATION, REPAIR, MOVING, REMOVAL, DEMOLITION, CONVERSION, OCCUPANCY, EQUIPMENT, USE, HEIGHT, AREA and MAINTENANCE OF BUILDINGS AND STRUCTURES IN THE CITY OF MENLO PARK; PROVIDING FOR THE ISSUANCE OF PERMITS AND COLLECTION OF FEES THEREFOR; PROVIDING PENALTIES FOR THE VIOLATION THEREOF.

The Council of the City of Menlo Park do ordain as follows:

Section 1. It shall be unlawful for any person, firm or corporation to commence or proceed with the erection, construction, alteration, repair, moving or demolition (restoration of plastering or painting excepted) of any building or other structure within the limits of the City of Menlo Park without first obtaining a permit from the Building Inspector of said city. The fee to be charged for such permit shall be One ($1.00) Dollar for each One Thousand $(1,000.-00) Dollars estimated cost of the work for which the permit is issued, provided that no fee shall be charged for said permit where the estimated cost of the work is One Hundred ($100.00) Dollars or less.

Section 2. The Council of said city shall appoint a Building Inspector who shall hold office at the pleasure of the Council and shall serve without compensation. It shall be the duty of the Building Inspector to examine into the plans and specifications of all buildings or other structures included within the terms of this ordinance to determine whether such proposed work complies with the laws of the State of California and the ordinances of the City of Menlo Park. Upon determination by him that such proposed work is not in violation of law nor of any ordinance of said city, he shall issue the permit as in Section 1 herein provided. Said permit shall authorize the carrying on of the work for which the same is issued, in accordance with the laws and ordinances thereto pertaining.

Section 3. Any violation of the provisions of this ordinance shall be deemed a misdemeanor and shall be punishable by a fine of not exceeding Three Hundred ($300.00) Dollors or by imprisonment not exceeding 90 days, or by both such fine and imprisonment.

Section 4. This ordinance is an ordinance for the immediate preservation of the public peace, health and safety and the facts constituting its urgency are declared to be as follows: Numerous buildings and other structures are now being erected within the City of Menlo Park without regard to the provisions of law thereto pertaining, all of which is detrimental to the public peace, health and safety of said community, for which reason this ordinance shall go into full force and effect upon its final passage.

Section 5. This ordinance shall be published once in the "Menlo Park Recorder," a weekly newspaper of general circulation published and circulated in the said City of Menlo Park.

J. C. ELLIS,
Mayor Pro tem of the City of Menlo Park.

ATTEST: FANNIE I. KURTZ,
City Clerk.

I, the undersigned Clerk of the City of Menlo Park, and ex-officio Clerk of the Council of said City, hereby certify that the foregoing Ordinance is a true and correct copy of Ordinance No. 10 of said City,, which was introduced at a regular meeting of said Council, held January 10, 1928, and was passed and adopted at a regular meeting of said Council held February 21, 1928, being not less than five days after its said introduction, by the following vote:

AYES: Trustees Ellis, Harcom, Brown, Heltzel.
NOES: None.
ABSENT: Trustee Blake.

ATTEST: FANNIE I. KURTZ,
City Clerk.

ORDINANCE No. 11

AN ORDINANCE PROVIDING FOR A LICENSE TAX ON DOGS IN THE CITY OF MENLO PARK, AND PROVIDING FOR COLLECTION THEREOF, AND FOR THE APPOINTMENT OF A POUNDMASTER.

The Council of the City of Menlo Park do ordain as follows:

Section 1. There is hereby imposed an annual license tax of Two Dollars ($2.00) on every male dog and Four Dollars ($4.00) on every female dog owned or harbored within the limits of the City of Menlo Park. Said license tax shall be paid to the Chief of Police by any person owning or harboring any such dog and it shall be the duty of the Chief of Police to receive and collect all such license taxes and issue his receipt therefor, together with a numbered metal license tag which shall be attached to the collar of such dog so licensed. All licenses so issued shall expire on the 31st day of December of the year for which issued; for all of such licenses having less than twelve months and more than six months to run until their expiration, the full amount of the annual license fee herein provided for shall be charged; and for all such licenses having less than six months to run until their expiration, one-half of the full amount of the said annual license fee shall be charged.

Section 2. It shall be unlawful for any person to own or harbor within the limits of the City of Menlo Park any dog upon which the license tax herein provided has not been paid. It shall further be unlawful for any person claiming the ownership of any dog or paying the license tax therefor to permit such dog to run at large within said City unless in the immediate custody or control of some person.

Section 3. The City Council shall appoint a Poundmaster who shall hold office at the pleasure of the Council. The Poundmaster shall at his own expense provide and maintain at such place as the City Council shall approve, suitable enclosure with shelter for the keeping of all dogs impounded, and likewise shall feed and care for all dogs impounded.

Section 4. The Pounmaster is hereby authorized and it shall be his duty to seize and impound any and all dogs found within the limits of said city, to which there is not attached the license tag herein provided for, and to seize and impound any and all dogs running at large within the limits of said City which are not in the immediate custody and control of some person.

Section 5. Within twenty-four hours after the impounding of any dog, the Poundmaster shall cause to be posted on the Official Bulletin Board at the City Hall of said City a notice setting forth a description of said dog, the date of impoundment, the owner's name, if known, and the fact that unless said dog be redeemed within three days from said date of impoundment, it shall be disposed of as provided by law; and in addition to such notice he shall notify the dog's owner, or reputed owner, if known, of such impoundment.

Section 6. At any time within three days after the impoundment of any dog, as in Section 4 hereof provided, the owner thereof may redeem it from impoundment by paying to said Poundmaster an impounding fee in the sum of One Dollar ($1.00) for the first day of impoundment, or fraction thereof, and an additional twenty-five cents (25c) for each day or fraction thereof that said dog may have been impounded; and in addition thereto, shall pay the current license tax, if the same has not been paid.

Section 7. Upon the expiration of three days from and after the date of impoundment of any dog, as in Section 4 hereof provided, and after the Posting of notice as in Section 5 hereof provided, and providing such dog has not been redeemed, Poundmaster shall kill and bury, or otherwise dispose of, said dog; provided, however, that the Poundmaster shall have the right to dispose of any such dog by gift or sale to any person who shall pay the current license tax on said dog.

Section 8. The Poundmaster shall keep a record in such form as the Chief of Police shall require, of all dogs impounded by him, and on or before the first business day of each month and at such other times as the Chief of Police may require, shall submit a report to the Chief of Police of all dogs impounded during the preceding month and of all moneys collected by him as Poundmaster and such report shall, by the Chief of Police, be filed with the Clerk of said City. All penalties, impounding fees and license fees collected by said Poundmaster shall be paid over to the Chief of Police and paid into the Treasury.

Section 9. In compensation for his services, the Poundmaster shall be paid as follows, payment to be made monthly:

For each dog impounded and redeemed, an amount equal to the impounding fee collected under the provisions of Section 6 hereof, not to exceed the sum of $1.50 on each dog so impounded and redeemed.

Also, the sum of $1.00 for each dog killed and buried, and for each dog killed and the body thereof otherwise disposed of.

Section 10. If any dog shall, within the limits of the City of Menlo Park, bite any person, the owner or person having control of such dog shall, upon request of the Chief of Police or any officer authorized by him, deliver to such officer said dog, to be held for a period of ten days for the purpose of determining whether or not such dog is afflicted with rabies, and the owner of such dog shall pay all necessary expenses of keeping thereof during such time as dog is so held.

Section 11. Any person who shall obstruct or resist the Poundmaster in performance of his duties, or who shall violate any of the provisions of this Ordinance, shall be deemed guilty of a misdemeanor, which shall be punishable by a fine not to exceed Fifty Dollars ($50.00) or by imprisonment not exceeding thirty days, or by both such fine and imprisonment.

Section 12. This Ordinance is an Ordinance for the immediate preservation of the public peace, health and safety, and the facts constituting its urgency are reclared to be as follows: Numerous dogs are running at large within the City of Menlo Park and constitute a menace to the public peace, health and safety of said community, for which reason this Ordinance shall go into full force and effect upon its final passage.

Section 13. This Ordinance shall be published once in the "Menlo Park Recorder", a weekly newspaper of general circulation, published and circulated in the said City of Menlo Park.

J. C. ELLIS,
Mayor Pro tem of the Council of the City of Menlo Park.

ATTEST: FANNIE I. KURTZ,
City Clerk.

I, the undersigned Clerk of the City of Menlo Park, and ex-officio Clerk of the Council of said City, hereby certify that the foregoing Ordinance is a true and correct copy of Ordinance No. 11 of said City, which was introduced at a regular meeting of said Council, held February 14th, 1928, and was passed and adopted at a regular meeting of said Council held February 21, 1928, being not less than five days after its said introduction, by the following vote:

AYES: Trustees J. C. Brown, J. C. Ellis, J. J. Harcom, J. H. Heltzel.
NOES: Trustees None.
ABSENT: Trustee A. E. Blake.

ATTEST: FANNIE I. KURTZ,
City Clerk.

ORDINANCE No. 12

AN ORDINANCE TO PROHIBIT GAMBLING IN THE CITY OF MENLO PARK.

The Council of the City of Menlo Park do ordain as follows:

Section 1. It is hereby declared unlawful for any person in the City of Menlo Park to play or engage in any game with cards, dice or other devices, for money or for checks, credit or representative of value which is redeemable in money.

Section 2. Any person violating any of th provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding One Hundred Eighty Dollars ($180.00) or by imprisonment not exceeding ninety (90) days, or by both such fine and imprisonment.

Section 3. This ordinance is an ordinance fo rthe preservation of the public peace, health and safety, and the facts constituting its urgency are declared to be as follows: The carrying on of gambling within said city is a menace to the public peace, safety and morals of said community; for which reason this ordinance shall go into full force and effect upon its final passage.

Section 4. This ordinance shall be published once in the "Menlo Park Recorder," a weekly newspaper of general circulation, published and circulated in the said Citiy of Menlo Park.

J. C. ELLIS,
Mayor Pro tem of the Council of the City of Menlo Park.

ATTEST: FANNIE I. KURTZ,
City Clerk.

I, the undersigned Clerk of the City of Menlo Park, and ex-officio Clerk of the Council of said City, hereby certify that the foregoing Ordinance is a true and correct copy of Ordinance No. 12 of said City, which was introduced at a regular meeting of said Council held February 16, 1928, and was passed and adopted at a regular meeting of said Council held February 21, 1928, being not less than five days afters its said introduction, by the following vote:

AYES: Trustees, Ellis, Harcom, Brown, Heltzel.
NOES: None.
ABSENT: Trustee Blake.

ATTEST: FANNIE I. KURTZ,

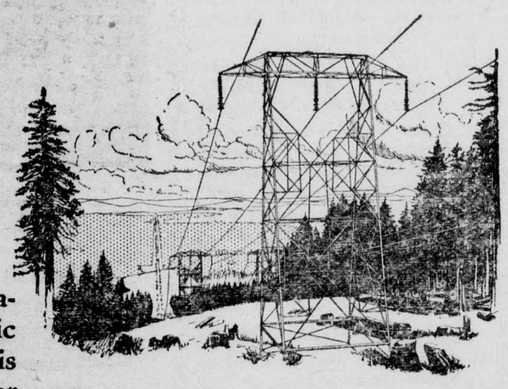
Electric Rate Reduction

For Lighting NOW in Effect
New Domestic Rates in Effect April 1, 1928



$1,750,000.00 Saving

Through the application of the new electric rates, customers of this Company will save over $1,750,000.00 a year based on present use of electricity.

Average 10% Reduction

As for example in the metropolitan bay area, a customer who formerly paid $2.40 a month will now pay $2.15, or a saving of $3.00 a year, or more than one month's bill.

Lighting Cheaper

The new lighting schedules go into effect automatically with the top or maximum rate greatly reduced.

Upon application from the domestic consumer qualifying, there is offered a new rate for combined use of light and heat or power.

Domestic Rate

Where domestic consumers have lighting service and in addition use electric appliances totaling 1000 watts or more capacity this new rate applies. In the bay area a domestic consumer formerly paying $3.30 will now pay $2.60 a month, a saving of $8.40 a year, or a reduction greater than two and a half months' bill under the former lighting rate —*all territory will be reduced in similar proportion.*

Old Minimum Charges Abolished

In place of the former 90c, $1.00 or $1.25 minimum charges there will now be a small service charge of 40c, 50c or 70c — in accordance with the territory served.

Heating and Cooking Rates as Low as 1½ Cents Per Kilowatt Hour

The new schedules provide attractive lower rates for this class of service and are designed to encourage a greater use of electricity. These rates are among the lowest obtainable anywhere.

Make Electricity Your Household Servant

Let it brighten the gloomy corners—do the cooking—ironing—washing. Let it sweep the floors—operate the electric fan—drive away the chills. It will percolate the coffee, make the toast, keep your food cool and wholesome. It will aid you in many ways through the use of the modern electric labor saving devices, obtainable through the local electrical dealers or our offices.

Our representative will be pleased to explain how a greater use can be made of your electric service through the application of these new rates.

Electricity is cheaper—you can use more of it

Golden State
News of Interest to All

Declaring that the State Park Bond Act, if ratified, will gain for California $12,000,000 worth of parks through the expenditure of $6,000,000, Duncan McDuffie, chairman of the California State Parks Council, addressed a meeting of the council in the Palace Hotel, San Francisco, a few days ago. The meeting was held to discuss ways and means of carrying on the campaign for the passage of the bond issue, which will come before the voters of the state at the election in November, 1928.

Construction of a $3,000,000 Federal building on the Civic Center was assured at San Francisco a few days ago, with word from Washington that President Coolidge had signed the new $100,000,000 public buildings appropriation bill. Ten million dollars out of the national appropriation will be spent in California, it was announced. Oakand will get a new $1,000,000 postoffice to be erected near the site of the present building. Besides the Federal buildings at San Francisco on the Civic Center, many thousands will be devoted to remodeling the postoffice building in Seventh street to provide two extra courtrooms and other improvements.

Two men under sentence of death were received at San Quentin a few days ago and locked in condemned-row awaiting the call of the hangman. They are Clarence "Buck" Kelly, San Francisco terror bandit, and Edgar LaPierre, convicted of killing an Oakland police inspector. The new arrivals brought the number in condemned-row to six. La Pierre is scheduled to hang April 27; Kelly May 11.

Reckless and intoxicated California motorists caused 9,159 accidents involving either injury or death, during 1927. This is shown in records of the state division of motor vehicles, as forwarded in reports by police departments and traffic officers throughout the state. The records place the number who died during the year from motor accidents at 1,651, those seriously injured at 4,277, and those receiving minor injuries at 14,091.

Statement of plans of the Western Air Express, Inc., of Los Angeles, to conduct air passenger service between Los Angeles and San Francisco were confirmed last week by Harry Guggenheim, president of the Guggenheim Foundation to Promote Aeronautics. An equipment trust loan has been made to the Western Air Express for the purchase of three fourteen-passenger Fokker planes for use on the Los Angeles-San Francisco route, it was stated.

Folsom's six Thanksgiving day murderers who escaped the noose through an unusual jury verdict at Sacramento last week, are to be tried again for their lives. District Attorney Neil R. McAllister announced that the sextet, already convicted of the first degree murder of Guard Ray Singleton, will be prosecuted a second time for the slaying of George "Red" Baker, Folsom trusty who was shot to death in the prison revolt of last November.

Earl E. Jensen, state director of institutions, within thirty days will ask Governor C. C. Young to approve a location for temporary quarters to treat California's narcotic addicits. Jensen indicated that it will be at one of the state hospitals. Eventually it is planned to establish a separate institution for treating addicts. As soon as the governor's approval is secured, work will be rushed in providing quarters and equipment and establishing a personnel. "It is planned to employ the latest, most humane and scientific methods of treatment, to furnish supervision after the patients have been discharged from the institution, and to render assistance in securing employment and proper placement," Jensen said.

Employment of California residents, and especially those with families, on highway construction projects, in preference to transients drawn here by the mild winter weather, was recommended by Governor C. C. Young to B. B. Meek, director of the state department of public works last week. The Governor at the same time complimented Meek and other highway officials on their announced program of hastening opening of spring highway work so the unemployment situation may be relieved. Governor Young also has urged the division of highways and the division of architecture to work with the state's free employment agencies when the need for labor arises. The state bureaus, he pointed out, by co-operating with all the other agencies, are in touch with the most desirable labor supply and can fill any needs.

Immediate construction of the causeway over Sutter-Butte by-pass, which will improve Northern California highway connections and facilitate travel conditions between the Northern counties and the San Francisco bay district was ordered last week with the award of a contract by the state department of public works. The causeway, on the highway between Yuba City, Sutter county and Woodland, Yolo county, is to be built by the Morrison Knudson Company of Boise, Idaho, the contract involving $228,134.200.

Only the four regularly qualified California political organizations, the Republican, Democratic, Socialist and Prohibition parties, will be represented on the May presidential primary ballot. February 16 was the last day for the filing of petitions with the secretary of state in qualification of new parties.

Charles V. Eakin, president of the West Air Transport Company, at Portland, Ore., last week announced complete schedules and fares on the new airplane passenger service to start March 5 between Seattle, Portland and San Francisco. Two round trips will be made daily between Portland and Seattle, and tri-weekly trips will be made to San Francisco. Running time of the big tri-motored planes between Portland and Seattle will be one hour fifteen minutes with stops at Chehalis and Tacoma. One way fare will be $12 and the round trip $20.00. Time between Portland and San Francisco will be 6 hours, 15 minutes, with stops at Medford, Ore., and Corning, Calif. One way fare will be $45 and round trip $85. No schedule will be run on Sunday.

Oil field operations reported to State Oil and Gas Supervisor R. D. Bush during the week ended February 25, 1928, show 21 new wells started, compared with 24 during the previous week. Of the 21 notices to drill filed 8 were for wells in the Long Beach field, 1 in the Richfield field, 3 in the fields of Ventura county, 88 in the fields of Kern county, and 1 in the Coalinga field. The total new wells this year is 178, compared with 220 at the same date last year. Tests for water shut-off numbered 23, compared with 33 during the previous week. Yearly total to date, 195; total to same date last year, 184.

Legislation reorganizing the present California force of traffic officers as a unit operating strictly under State control without reference to county boundaries was proposed a few days ago at the meeting of Governor C. C. Young's cabinet at Sacramento. The officers are now named by the Setate from eligible lists prepared by county boards of supervisors.

Indication was given a few days ago that actual construction work on the $1,000,000 Orpheum Theater on the north side of J street, between Eleventh and Twelfth streets, Sacramento, will start almost immediately. Theodore W. Chester, counsel for Joseph H. Chester, counsel for Joseph H. Stephens, A. O. Johnson and Charles Miles, who will build the playhouse for lease by the Orpheum circuit, stated that plans for the theater have just been approved by the Chicago office of the Orpheum.

Senator Garrison of Modesto last week conferred with B. B. Meek, director of public works, and highway officials to ask early construction of the primary highway between Markleville and Coleville, the only uncompleted unit of an "all-California road" between Southern California and Lake Tahoe. Completion of this road, a distance of thirty miles, Garrison said, will save motorists forty miles in travel between Markleville and Bridgeport.

The date for the air show being planned by the Sacramento Aviation Club was tentatively agreed on last week by the club's directors for the week of May 27th. The show is being planned for the municipal airport and will be held over a period of five days. According to John S. Lawson, treasurer of the club, it is planned to eliminate stunt flying and so fashion the show so that it will be the first of its kind in California.

Excavations in Yosemite Valley for the purpose of widening the loop road between Mammoth Hot Springs and Camp Roosevelt, have revealed that a number of hardwood trees, magnolia, sycamore and chestnut, once flourished in that section, according to H. L. Mason of the Botany department of the University of California. Mason estimates that the trees were flourishing perhaps 4,000,000 years ago, and evidence of their existence in the form of imprints of leaves and twigs was preserved by a great eruption of lava from some volcano.

More worry for the widows of California was indicated a few days ago in the announcement of the Department of Internal Revenue that suits will be filed immediately for the recollection of money refunded by the government following one of the contradictory court decisions on the California community property law. The suits will be directed against 150 widows. The money in question has been batted back and forth like a tennis ball in a lively game by court action. This decision holds that a widow must pay full inheritance tax instead of being exempt from one-half of it. It holds that she has no vested right in community property, but only an expectancy like any other heir. The decision also declares that all money refunded to widows under a previous court ruling must be paid back to the government.

A new laboratory for the study of acoustics or sound is now being designed at the University of California at Los Angeles. Three rooms in the laboratory will have double walls of concrete each 10 or 12 inches in thickness, floors of cork underlaid by sand, and a complete sheathing of galvanized iron to exclude even radio waves. The instruments used in such laboratories designed by Professor Vern O. Knudsen of the physics department, are delicate enough to detect the presence or absence of one felt hat in the room.

BEAUTIFUL SCENERY BEING EVOLVED FOR PASSION PLAY

Scenery rivaling in brilliancy and execution the work of ancient masters will form the background through which the prologue and seven scenes of Clay M. Greene's dramatic biblical story, "The Passion Play of Santa Clara", will move on the nights from March 21 to 25 when students of the University will present the sacred story for the fifth time.

In the far corners of Europe, in the famous art galleries in the world Michael Sullivan, noted San Francisco and San Mateo scenic artist, made a study of his subject for years. He journeyed not only to Europe, but to the Holy Land in his quest for ideas and effects and consulted such famous biblical painters as Tissot, Dore, Mastriaianni, and Rahn that he might be able to give Clay M. Greene's masterpiece a proper setting in the new world.

For the past four months Sullivan has labored untiringly on the canvas for the play until critics who have viewed it declare that it possesses a beauty of color and massiveness of architecture that has never been equalled in the West.

The Passion Play, as it will be produced, calls for a faithful reproduction of many of the scenes which figured in the life of Christ.

Changing Sin Styles

We people in Junction City wish the idea of sin wouldn't change so often. It gets us so that we don't know where we're at. It'd be lots more comfortable to know what sin was, so that there wouldn't be any doubt about it, and then we could get out and fight it. Sometimes, just as we get busy fighting sin and the ol' devil, we find that it isn't sin any more at all, but is what everybody is doing.

What we need is stabilized sin. It's plumb disgusting to get out and fight a thing for years and then find that it existed only in our imaginations. We in Junction City don't want sin changed on us. We're fighters. We don't care what sin we're fighting, just so we're fighting it.—Homer Croy in Plain Talk Magazine.

Magisterial Wisdom

When called upon recently to settle a quarrel between two Jewish women, a London magistrate handed a copy of the Bible to the official interpreter, saying: "Take these women out of court and read them the One Hundred Thirty-third Psalm. One of the women has only a limited knowledge of English. Translate it for her into Yiddish." Later, the interpreter returned to court and reported that the magistrate's scheme had been entirely successful. The first sentence of the psalm reads: "Behold, how good and how pleasant it is for brethren to dwell together in unity."

The Cynical Flounder

Wisdom may not be in the depths but enough things are there to keep wise men thinking deeply, and millions of men at work, preparing potash and ammonia; drying sea weeds, to use among other things for decoration, on the Japanese New Year, as an American uses holly on his. We think of paper made from kelp and of mattresses stuffed with eel grass. Of glue and of Irish moss, "used as an ingredient in kalsomines, shoe stains, shaving soaps and cosmetics," according to Dr Donald K. Tressler, authority on such things.

The Spirit of Service

In July, 1926, lightning struck the Navy Arsenal at Denmark Lake, New Jersey. The explosion demolished the $80,000,000 plant, rocked the countryside, left thousands homeless and many dead.

High upon the roster of those who responded to the call of duty were the telephone workers. Operators in the danger zone stayed at their posts. Others, on their own initiative, hurried back to help. Linemen and repairmen braved exploding shells to restore the service. No telephone worker left the affected area.

Through the twenty-four hours of the day as well as in every emergency it is the spirit of service that causes Bell System employees to set aside all thought of personal comfort and safety and, voluntarily, risk their lives to "Get the message through."

Escape From Danger Makes for Pleasure

In escape from dangers of all kinds we find one of the greatest thrills in life. The small child asks to be chased and squeals with delight as she escapes; small boys skate over thin ice; grown men hazard their fortunes by gambling, and women risk their reputations by reading risque stories—all that they may have the thrill of escaping from something.

The stories of universal appeal, from "Little Red Riding Hood" and "Jack the Giant Killer," up to the highest tragedies, are stories of escape or attempted escape. Even our spiritual struggles are dramatized stories of escape. "The Pilgrim's Progress" is the story of Christian's escape from the City of Destruction, though the interest is sustained by a number of minor escapes, beginning with the Wicket Gate whereon was written "Flee from the wrath to come" and ending with his final escape from the river, which he found deeper or shallower according as his faith grew weaker or stronger.—Thomas Nixon Carver, Harvard Professor of Political Economy, in the Magazine of Business.

Films of Rare Wood Used for Furniture

The growing scarcity of the more beautiful and valuable woods has made necessary the substitution of other and cheaper kinds. Thus hardly any furniture nowadays is made of solid mahogany, and inferior materials have very generally taken the place of the disappearing "cabinet woods." Indeed, high-grade timber of any kind is now so costly as to prohibit its common use as the solid body of furniture. Manufacturers are resorting more and more to the use of veneers. Articles of furniture, ranging from tables to phonograph and radio cases, have skeletons of cheap wood covered with a thin skin of high quality wood.

Now the skin is not usually more than one-twentieth of an inch thick. A thousand board feet of lumber will produce 10,000 square feet of veneer. Thus a great economy is obtained, and the furniture so made is as attractive as that of solid wood.

Famous Bachelors

Bachelors are the targets for many hard jolts in the world of tears. But let's give bachelors their due. Look at the batting average of the bachelor and see what he has accomplished. Single blessedness has been no barrier to success. There are John G. Whittier, Washington Irving, Phillips Brooks, Walt Whitman, John Randolph, Thaddeus Stevens, James Whitcomb Riley, James Buchanan, the only bachelor President.

But why go farther? Let's leave the United States and see the names of some of Europe's illustrious bachelors. Here they are: Sir Isaac Newton, Michelangelo, Mendelssohn, Beethoven, Pitt, Raphael, Buckle, Gibbon, Macaulay, Locke, Handel, Galileo, Kant and Sir Joshua Reynolds.

Hats off to bachelors!—Chicago Daily News.
